

TEAM REFERENCE

INDICE

0D Objects: Points	1
Rotate p by theta degrees	1
1D Objects: Lines	1
Are intersect (line, line)	2
2D Objects: Vector	2
Distance (point, line)	2
Collinear (point, line)	2
CCW (point, line)	3
2D Objects: Circles.....	3
Point in Circle	3
Center of circle (point, point, radius)	3
3D Objects: Spheres	3
Circle Distance (point, point) in the spheres	3
Struct polygon	3
Perimeter of a polygon	3
Area of a polygon	4
Checking if a polygon is convex	4
Checking if a point is inside a polygon	4
Cutting polygon with a straight line	4
Generating list of prime numbers	5
Finding prime factors with optimized trial divisions	5
Functions involving prime factors	6
Count the number of prime factors of N	6
Count the number of different prime factors of N	6
Sum the prime factors of N	6
Count the number of divisors of N	6
Sum the divisors of N	6
EulerPhi	6
Square matrix exponentiation	7
Counting change	7
